Rescheduled Webinar: State Policies to Support Sector Partnerships

NATIONAL SKILLS COALITION
Every worker. Every industry. A strong economy.

Join us for our rescheduled webinar on sector partnerships

National Skills Coalition is pleased to present our newest webinar: **State Policies to Support Sector Partnerships**.

Unexpected audio issues kept us from completing this webinar when we first conducted it on November 3. So if you weren't able to join us then (or if you only got to hear half), here's your chance to tune in.

Under the Workforce Innovation and Opportunity Act, states are required to support local sector partnerships, a proven strategy for meeting the needs of workers and employers. During this webinar, National Skills Coalition will share tips from its forthcoming toolkit for creating robust state sector partnership policies. Partners in the field will share lessons learned from sector partnership policy in their states.
